Outcome of Webinar

The webinar helped the participants to understand about 30 years of India's economic reforms. It projected them the time need of such reforms. There is no alternative situation to turn the crisis into an opportunity and undertake structural reforms that were long overdue. Through this webinar it analyzed on banking and finance of Indian economy and the economic impact on lives of people. Reforms led to increased competition in the sectors like banking, leading to more customer choice and increased efficiency. It has also led to increased investment and growth of private players in these sectors.

Impact of Webinar

The New Economic Policy of 1991 included standard structural adjustment measures including the devaluation of the rupee, increase in interest rates, reduction in public investment and expenditure, reduction in public sector food and fertilizer subsidies, increase in imports and foreign investment in capital-intensive and high-tech activities, and abolition of the cash compensatory support for exports. These policies have resulted in increased urbanization.

Impact of Webinar on the “New Education Policy and its Impact on Affiliated Colleges”

New Education Policy comprises comprehensive reforms that will have a far reaching impact on school and higher education Institutions of India. The goals of NEP will be realized only if people are made aware about the reforms and its impact. The policy envisages creation, transmission, use and dissemination of knowledge. The webinar played a vital role in this aspect to create awareness amongst teachers, students, officials and other stakeholders in the higher education system to contribute directly to transform our nation sustainably into an equitable and vibrant knowledge society by providing high quality education to all.

Outcome of Webinar on the “New Education Policy and its Impact on Affiliated Colleges”

The session enriched the participants on the paradigm shift in Indian education system brought by the New education Policy which is a holistic, flexible, and multidisciplinary approach, aligned to the sustainable development goals. The participants could understand the ambitious and futuristic goal of NEP to participate collectively in making India a superpower. Many doubts related with the reform was discussed and cleared well by the speaker during the session which helped the listeners to gain better understanding on the policy issue.

Dear Sir / Madam,

We are glad to inform you that the Department of Corporate Economics of our college is organizing a Webinar on the Financial Packages announced by the Union Government to stimulate the Indian economy in the context of COVID-19. As all of you are aware, the Government of India announced Sampoorna Lockdown on 25th March 2020 to prevent the spread of Coronavirus. As a result, all the educational institutions, business establishments, productive sectors, public transport etc. have been closed causing severe havoc for the Indian economy. The Reserve Bank of India has opined that the nation is going to face a negative growth rate during the financial year 2020-21.

The poor, migrant laborers, small scale industries, vegetable vendors, small business establishments have been demanding stimulus packages. The OECD Countries like the UK, USA, and Canada have come out with financial packages almost equal to 10% of their GDP. Eminent economists like Abhisit Sen, Raghuram Rajan and opposition leaders were demanding similar financial packages in India to stimulate the Indian economy.

In the broadcast to the nation, Sri Narendra Modi, Hon'ble Prime Minister announced a financial package amounting to Rs. 20 lakh crore which is equal to 20% of the GDP.

It is in this context that the Department of Corporate Economics is organizing a webinar of this type to analyze the effectiveness of these packages. The webinar also discusses alternative strategies. The resource persons for this webinar are Mr. N. K. Premachandran, Hon'ble member of the Parliament from Kollam Parliamentary Constituency and Dr. V. K. Vijayakumar, an eminent economic analyst and Chief Investment Strategist of Geojit Financial Services Ltd.

With warm regards,

Reshma Marlin Biju **Reshmi Susan & Manu Mohan** **Dr. K. K. John** **Prof. M C Joseph**

Impact of Webinar on “Financial Package of Union Government to Stimulate Indian Economy.”

In the scenario of increasing needs and wants of the people during the light of the novel coronavirus where an epidemic turned out to be a pandemic, financial aid or support by Government is among the most required necessities. Having gone through four phases of lockdown with the fourth phase ending by March 31st our country was faced by appalling complications and obstacles to its functioning. In this scenario it is very important to understand and analyze how stimulus package announced by the Finance Minister Nirmala Sitharaman helps to revive the economy. The participants could gain deep understanding on the package and whether it was sufficient or not for reviving the economy.

Outcome of Webinar on “Financial Package of Union Government to Stimulate Indian Economy.”

The technical sessions handled by the eminent speakers helped the participants gain awareness on the challenges and opportunities of Covid 19 pandemic has on the Indian economy and also from global perspectives. The key issues on Kerala remittances, unemployment, poverty, migrant labors and stock markets were well detailed by the speakers and participants could get a real picture of the economic crisis and ways and means to overcome them. Also an appraisal of the union package by the MP helped the participants understand its drawbacks and need to reconsider the package by the Union Government.

Impact Analysis of National seminar on Petroleum conservation

A one-day national seminar on petroleum conservation was conducted by the department of Corporate Economics in association with PCRA, Government of India on February 12, 2019. It created awareness among the students, teachers and the public about the need to conserve natural resources. The meeting was also successful in spreading the message that 'energy saved is energy produced'. The seminar also explored the possibility of alternative non-conventional energy sources as fossil fuel is on the verge of extinction.

Outcome Review of National seminar on Petroleum Conservation

The seminar was successful as it created a favourable impact among the autorickshaw and car drivers of the nearby areas. The resource persons highlighted the need for applying the clutches and gears in an effective manner to save energy. Hence, it was suggested that the department should conduct similar programs for the bus and truck drivers also periodically. Students were also made aware of petroleum conservation methods and use of green energy.
