

## 1.2.2\_Percentage of students enrolled in Certificate/ Add-on/Value added programs as against the total number of students during the last five years

### 1.2.2.1. Number of students enrolled in subject related Certificate/ Add-on/Value added programs year wise during last five years

The HEI input regarding the number of students enrolled in various value added courses is correct and the mismatch with the data template is because, in the data template there is repetition of students as some students opted for more than one value added course during the same academic year.

The number of students who opted for more than one course is highlighted. When the highlighted number is deducted from the No: of students (as per data template) we will obtain the number of students as per HEI input. The same is worked out in the Remarks column.

Enclosed below is the list of student enrolment in value added courses offered during the last 5 Years

### Academic year 2021-2022

Name of Value Added Course	Course code	Program	Year	No: of students ( HEI input)	No: of students (Data template)	Remarks
