Report submitted to Mahatma Gandhi University based on Suggestions received from the stakeholders of Saintgits College of Applied Sciences, Pathamuttom, Kerala during the academic year 2020-21

This college namely, Saintgits College of Applied Sciences, takes feedback from our stakeholders on yearly basis in order to improve the teaching-learning process and other facilities which contributes to the holistic development of students. We would like to bring to your kind attention, the following suggestions that we received from them for your kind perusal:

- During Covid period, there was no regular class on the offline mode and hence classes were conducted only in the online mode. Many students had connectivity issues. As a result, many students could not attend the classes in full session. Many of the students represented a concern that that if examinations are conducted in the regular pattern, they could not write the entire answers. The university may adopt a liberal pattern of examination in this context.
- The timing of the online classes may be kept flexible as students experience connectivity and health issues.

Kindly take into consideration the above suggestion and do the needful.

Dr. K. K. John
