Outcome of the survey

- Collected data from 1258 houses spanning over five panchayats.
 - Panachikadu Panchayat - 211 Households
 - Vakathanam Panchayat - 236 Households
 - Kurichy Panchayat - 287 Households
 - Manarkadu Panchayat - 270 Households
 - Vazhapally Panchayat - 254 Households
- Students were able to interact with households belonging to various strata of the society and were able to understand problems and difficulties faced by poor households.

The survey was conducted as part of the primary task given by the coordinating institute (IIT Delhi) to newly participating institutes. As part of UBA, our college has to adopt five villages and carry out various developmental and supportive works in those villages. The survey was conducted as an initial step to collect data regarding the five adopted villages so that we could have a basic understanding of the villages. For initiating the survey, permission was obtained from the Deputy Director of Panchayats (Kottayam). The survey spanned over five days, one day for each village adopted. Students were divided into groups of three and dropped off at random places in a particular village so that they could carry out the survey.
