- Facilitate the development of analysing skills in students
- Improve the data management & designing skills of students
- Improve the students knowledge in formatting documents.

RELEVANCE

Information Technology (IT) has flexed its extent to almost every aspect of our day to day life. From mobile apps, computer interface, to ATMs, we see the magic of IT in every walk of life. The financial and commercial domain has not remained untouched by this magic of IT. Information technology and software tools are extensively used by auditors, traders, tax departments etc to carry on their day to day business activities. This has now fueled the demand for professionals who have good knowledge of commerce as a subject as well as a good command over IT-related skills.

This add on course aims at delivering to this newly emerged demand of the industry by churning out qualified and skilled professionals out of graduate students with a background in commerce. The course attains its aim through structured and organized curriculum.
