

ENERGY POLICY

Saintgits College of Applied Sciences take efforts to conserve and optimize the use of energy to preserve the resources for future use and to ensure sustainable development. The policy embed efficiency in usage of energy in day to day operations, thus helping us to realize the stakeholders commitment and responsibility in conserving energy. The following are the guidelines intended to manage and reduce energy consumption in the campus.

Policies

- To use solar panels for generating alternate source of energy.
- Promote usage of LED bulbs to save energy.
- To educate the students and staff to minimize energy consumption.
- Directing stakeholders for efficient usage of electronic devices to reduce energy crisis.
- Switch off lights and fans when not in use in the premises and when classes are not held.
- Maximize the use of daylights and natural ventilations.
- Encourage the college community to use public transport and college buses to reduce wastage of energy.
- Use of energy efficient equipment in labs.
